

CAROL MAZVITA SAMANTHA DANDIRA

COMPUTER SCIENCE STUDENT • INTERNSHIP APPLICANT

+60 11 7221 4704 | caroldandira2006@gmail.com

PROFILE

Computer Science undergraduate with a strong interest in software development, web technologies, and building practical digital products. Experienced in developing web-based projects using HTML, CSS, JavaScript, PHP and MySQL, with additional experience in Python and computer science coursework. A proactive student leader who enjoys collaborating, learning quickly, and turning ideas into functional solutions. Seeking a student internship to gain industry experience and contribute to a technology-focused team.

EDUCATION

Sunway University — BSc (Hons) Computer Science

April 2026 – 2029 | Malaysia

Cambridge A-Levels

Mathematics • Chemistry • Computer Science • Physics

Cambridge IGCSE

1 A* • 7 A's • 3 B's

PROJECTS

Melopod — Music Social Platform

Designed and developed a music-focused social platform concept for musicians, producers, teachers and music lovers. Worked across front-end UI and PHP/MySQL functionality, including authentication, profiles, posts, videos, shorts, messaging, notifications, competitions, courses and social interactions.

Majaru Studios Website

Developed and maintained a studio website using HTML, CSS, JavaScript, PHP and MySQL. Worked on navigation, authentication, booking functionality, galleries and responsive user-interface improvements.

Content Calendar / Python Projects

Built Python coursework solutions involving text-file processing, date sorting, dictionaries, loops, string parsing and structured data handling. Focused on readable logic and practical problem solving.

LEADERSHIP & EXTRACURRICULARS

Head of Culture — Goldridge College

Held student leadership responsibilities, supported school culture and activities, and worked with other students and staff to coordinate initiatives.

Creative & Digital Skills

Artist and animator with an interest in digital creativity, visual communication, content creation and technology-driven projects.

TECHNICAL SKILLS

Programming	Python, PHP, JavaScript
Web	HTML, CSS, responsive design
Databases	MySQL, phpMyAdmin
Tools	GitHub, XAMPP, VS Code
Computer Science	Algorithms, data structures, computer organisation, networking fundamentals
Creative	Digital art, animation, visual design

ADDITIONAL STRENGTHS

Problem solving • Team collaboration • Leadership • Communication • Creativity • Fast learning • Attention to detail
